Product Detail

Product: Jackson
Code: SHV012A

Issue: 1
Date: 13-05-15

Product description:

Jackson shower valves are suitable for secure or anti vandal requirements. Comes complete with an anti-ligature wall fixing boss and lock nut so the item can be wall or panel mounted, ensuring that there are no ligature points on the button. Can be used as an anti-ligature push tap for a washbasin that also has an anti-ligature spray head.

For anti-ligature spray heads see the Cleveland range.
